### **DETAILED ACTION**

- 
1. Receipt is acknowledged of the Amendment filed December 30, 2003.

#### ***Drawings***

2. New corrected drawings are required in this application because the marked-up drawing filed on December 30, 2003 is approved by the examiner. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

#### ***Allowable Subject Matter***

3. Claims 9-17 and 21-22 are allowable over the prior art of record.

The following is a statement of reasons for the indication of allowable subject matter: Although, Nojiri (US PAT No. 6,445,210) discloses a level shifter circuit, Nojiri differs from the present claimed invention because, among other things, Nojiri pertains to a level shifter with a latch whereas the present claimed invention pertains to specifics of a fencing circuit receiving a fencing signal and controlling latching of the second signal and specifics of first and second latch circuits coupled to the first and second circuit where the first and second latches maintain the logical state of its output when the second power supply is powered off and the output of the latches are coupled to a combinational logic circuit and the output of the logic circuit is maintained when the second power supply is powered off. Accordingly, one of ordinary skill in the art would

not have been motivated to modify the teachings of Nojiri to meet the claimed limitation as set forth in the present claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
